Heartsaver CPR AED Online is the eLearning portion of the Heartsaver CPR AED blended learning course and is designed to teach students the cognitive information needed for CPR and AED training. Upon completion of the online portion, students must complete a hands-on session with an AHA BLS or Heartsaver Instructor. This course provides students with the convenience of completing the course at their own pace wherever they have access to the Internet. It includes interactive exercises and videos to engage students and provide periodic points of knowledge transference, along with audio and transcript for students who may have a hearing or visual disability.
